Great. Let's do 2 pm on Wednesday the 29th. Can someone set up a call-in line and let us know the info? Thanks!

Brian D. Ross

Please set a time that works for your group. I can miss my meeting if necessary. This is very important for us.

I would recommend the call be later in the day, either 10 am or perhaps after Levin's meeting ends in the afternoon.

While I too could be available any time, Rachelle will just be getting back to the office and probably won't even get these messages in time for a 9 am call...

Hello Everyone,

There is a scheduling conflict between the proposed Levin-Richmond Terminal Dredging (Levin) as described in the May 2013 DOP and work scheduled as part of the Superfund Project. I think the conflict can be resolved easily because Levin expects to complete the work within the first week of June. However, it sounds like we need a conference call to discuss this matter.

I suggest Wednesday at 9:00 am. If that will not work for you please suggest another time to the group. I will make myself available any time that day. Levin personnel have conflicts from 11:30 to 2:00.

Sincerely,

Debra A. O'Leary
